**(a) Action Recommended by Field****(1) Caching**

In view of the Austrian State Treaty developments and the resulting evacuation of U.S. occupation troops this year, Headquarters has recommended, and the field has concurred in, a priority caching program. Logistics has advised that, under a priority program, prepared cache material can be made available to the field in 30 days time. Headquarters is now engaged in obtaining the personnel, requisitioning the supplies for cache preparation, and arranging a tentative caching schedule. It is planned to emplace 13 air reception caches and a presently undetermined number of sabotage caches. The Army will provide support for the caching effort as they have in the past.

**(2) Training**

Headquarters has obtained the two FM instructors necessary to conduct the FM courses to be presented to ORDAOCHER members in Austria this summer. It is planned to run six day refresher FM course in July for the six ORDAOCHER members who received FM training last year. The eleven day full course will be run in August for six new ORDAOCHER members. The Army has agreed to support the training programs as they did last year.
